- Relevant Coursework: Audio Programming in C++, Csound, Programming in Max, Circuit Bending and Physical Computing, Modular Signal and Functions, Studio Technology, Intro to Programming

EXPERIENCE

Intern, Technology Specialist, SOUNDSCAPE Studios – Limassol, Cyprus

5/2024-7/2024, 5/2025-present

- Integrated and installed remote recording technology for songwriting and sound design.
- Developed and implemented a booking system for the studio's website, including database structure and automated email and marketing campaigns.
- Contributed to sound design for a commercial soundtrack for a luxury hotel in Greece.

AUDIO2MIDI - Audio Programming in C++ Final Project

11/2024-12/2024

- Developed a real time application used to convert audio input into MIDI data.
- Implemented pitch tracking software in C++ using the JUCE framework.
- Utilized IAC drivers for smooth integration with receiving data using any DAW

Producer, LYSISTRATA – Limassol, Cyprus

6/2024-7/2024

- Produced, mixed and recorded music for a multimedia art installation, incorporating composition and sound design into a multi-channel sculptural, cinematic video installation.
- Adapted audio elements to complement visual cues, contributing to an engaging audio-visual experience.
- Refined and customized work with animators to help fit their display space fit with stereo imaging and panning.

Resident Assistant, Berklee College of Music – Boston, MA

8/2024-present

- Collaborating with a team of over 15 RAs across campus, organizing programs and events.
- Personally managing over 30 residents, providing support and guidance on a daily basis.
- Fostering an inclusive and safe environment amongst residents, supporting conflict resolution, promoting civic engagement, and encouraging personal development.
